

2017 VISTA Principal Survey: Comprehensive Report – Overview

Overview: Survey Methodology, Design, and Report Structure

The Views on Instruction, State Standards, Teaching, and Assessment (VISTA) survey is an annual survey sponsored by the Massachusetts Department of Elementary and Secondary Education (ESE). VISTA gives educators a voice directly with the state on issues specific to education in Massachusetts. ESE will use educator feedback to improve statewide implementation, inform current and future policies, and better target state resources and supports.

In the 2017 administration, data collection began in mid-January and closed in mid-March. All Massachusetts principals were invited to participate. Principals from 52% (n = 963) of the state's schools participated in the survey, an increase from last year's response rate of 37% (n = 657) of schools. Superintendents also participated in the 2017 VISTA survey, and a separate report includes results from the superintendent survey. Survey findings are weighted to represent all Massachusetts districts and schools.

The 2017 VISTA Principal Survey included six sections.

1. [Demographic Questions](#)
2. [State Curriculum Frameworks](#)
3. [Educator Growth and Development](#)
4. [Educator Evaluation](#)
5. [Social and Emotional Learning \(SEL\)](#)
6. [ESE Overall Support](#)

This report is broken down by section and includes graphical representation of all selected-response (e.g., multiple choice) survey questions. Non-numeric open-ended text response questions are not included in this report. Data tables are provided in an [Appendix](#).

In order to protect respondent confidentiality, the report does not include response data if a survey question had fewer than six respondents and/or if all respondents or all but one respondent selected a single response option.

See the VISTA webpage (<http://www.doe.mass.edu/research/vista>) for more information about the VISTA study. The VISTA webpage includes more details about the study, additional reports (including results from the principal survey and from prior years), and copies of the VISTA surveys.

2017 VISTA Principal Survey: Comprehensive Report – Demographic Questions

Demographic Questions

The first section of the survey includes questions about survey respondents' experience in an administrative role and about their schools. Response from this section may be used to understand how to target resources and supports based on school profile.

2017 VISTA Principal Survey:
Comprehensive Report – Demographic Questions

**Including the current school year (2016-17), how long have you worked
as a school-level administrator?**

2017 VISTA Principal Survey: Comprehensive Report – State Curriculum Frameworks

State Curriculum Frameworks

The Massachusetts Curriculum Frameworks are designed to increase academic aspirations and raise expectations for learning. By setting and measuring high expectations, deepening professional learning for educators, and supporting child-first instruction, ESE aims to support Massachusetts educators in implementing high quality instruction that is aligned to our state's strong standards. The Next Generation Massachusetts Comprehensive Assessment System (NextGen MCAS) is aligned to those high standards and designed to provide districts with feedback on student progress in attaining the standards.

Questions in this section of the survey address respondents' views on the alignment, support for, and implementation of the Massachusetts Curriculum Frameworks (English Language Arts, Mathematics, and Revised Science and Technology/Engineering) in their districts.

2017 VISTA Principal Survey:
Comprehensive Report – State Curriculum Frameworks

Which statement best describes your familiarity with the 2011 Mathematics, 2011 English Language Arts and 2016 Science and Technology/Engineering framework for the grades taught in your school?

2017 VISTA Principal Survey:
Comprehensive Report – State Curriculum Frameworks

**Please indicate your agreement with the following statements about the
2011 Massachusetts English Language Arts (ELA) Curriculum
Framework.**

2017 VISTA Principal Survey:
Comprehensive Report – State Curriculum Frameworks

Which of the following English Language Arts (ELA) resources from your district do you need in your school, when compared to what you have now?

2017 VISTA Principal Survey:
Comprehensive Report – State Curriculum Frameworks

How much of the following English Language Arts (ELA) resources would you like in the future, compared to what you have now?

2017 VISTA Principal Survey:
Comprehensive Report – State Curriculum Frameworks

Please indicate the degree to which you think the following district or school resources are aligned to the 2011 English Language Arts Curriculum Framework.

2017 VISTA Principal Survey:
Comprehensive Report – State Curriculum Frameworks

**Please indicate your agreement with the following statements about the
2011 Massachusetts Mathematics Curriculum Framework.**

2017 VISTA Principal Survey:
Comprehensive Report – State Curriculum Frameworks

Which of the following Mathematics resources from your district do you need in your school, when compared to what you have now?

2017 VISTA Principal Survey: Comprehensive Report – State Curriculum Frameworks

How much of the following Mathematics resources would you like in the future, compared to what you have now?

2017 VISTA Principal Survey:
Comprehensive Report – State Curriculum Frameworks

Please indicate the degree to which you think the following district or school resources are aligned to the 2011 Mathematics Curriculum Framework.

2017 VISTA Principal Survey:
Comprehensive Report – State Curriculum Frameworks

**Please indicate your agreement with the following statements about the
2016 Massachusetts Science and Technology/Engineering (STE)
Curriculum Framework.**

2017 VISTA Principal Survey:
Comprehensive Report – State Curriculum Frameworks

Which of the following Science and Technology/Engineering resources from your district do you need in your school, when compared to what you have now?

2017 VISTA Principal Survey:
Comprehensive Report – State Curriculum Frameworks

How much of the following Science and Technology/Engineering resources would you like in the future, compared to what you have now?

2017 VISTA Principal Survey:
Comprehensive Report – State Curriculum Frameworks

Please indicate the degree to which you think the following district or school resources are aligned to the 2016 Science and Technology/Engineering Curriculum Framework.

2017 VISTA Principal Survey:
Comprehensive Report – State Curriculum Frameworks

Please indicate your agreement with the following statements.

2017 VISTA Principal Survey:
Comprehensive Report – State Curriculum Frameworks

Including this current school year, how much longer do you believe each of the following will remain in effect?

2017 VISTA Principal Survey: Comprehensive Report – Educator Growth and Development

Educator Growth and Development

ESE aims to ensure that all students have access to highly skilled educators by supporting a cycle of continuous improvement and identifying opportunities to develop and retain highly effective educators. The Commonwealth’s approach to educator development involves setting high standards for educators, evaluating educators based on those standards, and providing targeted professional development. ESE is also deeply engaged in strengthening the educator workforce by implementing more rigorous educator preparation program review standards, implementing performance assessments at the pre-service stage for administrators and teachers, and facilitating continuous improvement with educator preparation programs and the districts they serve.

This section of the survey gathers feedback on respondents’ views on opportunities for educator growth and development in their schools or districts.

2017 VISTA Principal Survey:
Comprehensive Report – Educator Growth and Development

How often does the following occur with regard to teacher collaboration at your school?

2017 VISTA Principal Survey:
Comprehensive Report – Educator Growth and Development

To what extent did each of the following factors influence your thinking and decisions about types of professional development (PD) to offer teachers during the 2016-17 school year (including summer 2016)?

2017 VISTA Principal Survey:
Comprehensive Report – Educator Growth and Development

To help students master the Massachusetts state standards, to what extent could teachers in your district benefit from support in the following areas? Please think of your teacher observations to form your opinion.

2017 VISTA Principal Survey:
Comprehensive Report – Educator Growth and Development

To help students master the Massachusetts state standards, to what extent could teachers in your school benefit from support in the following instructional strategies? Please think back on your teacher observations to form your opinion.

2017 VISTA Principal Survey:
Comprehensive Report – Educator Growth and Development

Thinking of your school's student support system, to what extent could your school benefit from support in the following areas?

2017 VISTA Principal Survey: Comprehensive Report – Educator Evaluation

Educator Evaluation

Educator evaluation plays a key role in promoting educator growth and development by providing useful and timely feedback through evaluations and opportunities for growth. The Massachusetts Framework for Educator Evaluation, which applies to both administrators and teachers throughout the state, is designed to:

- Promote growth and development amongst leaders and teachers,
- Place student learning at the center, using multiple measures of student learning, growth, and achievement,
- Recognize excellence in teaching and leading,
- Set a high bar for professional teaching status, and
- Shorten timelines for improvement.

ESE supports the success of the statewide educator evaluation framework by providing educators with training materials and resources, meaningful guidance, and timely communications. ESE seeks to actively engage educators in the ongoing refinement of the educator evaluation framework and its implementation.

The questions in this section of the survey address respondents' views on the role of evaluation in supporting educator growth and development during the 2016-2017 school year (including summer 2016).

2017 VISTA Principal Survey:
Comprehensive Report – Educator Evaluation

With regard to your own experience with your own evaluation process, please indicate your agreement with the following statements about the principal evaluation system used in your school/district.

2017 VISTA Principal Survey:
Comprehensive Report – Educator Evaluation

Which of the following options best describes the value of the observational feedback you receive on strengthening your school leadership?

2017 VISTA Principal Survey:
Comprehensive Report – Educator Evaluation

2017 VISTA Principal Survey: Comprehensive Report – Educator Evaluation

The district's teacher evaluation system helps...

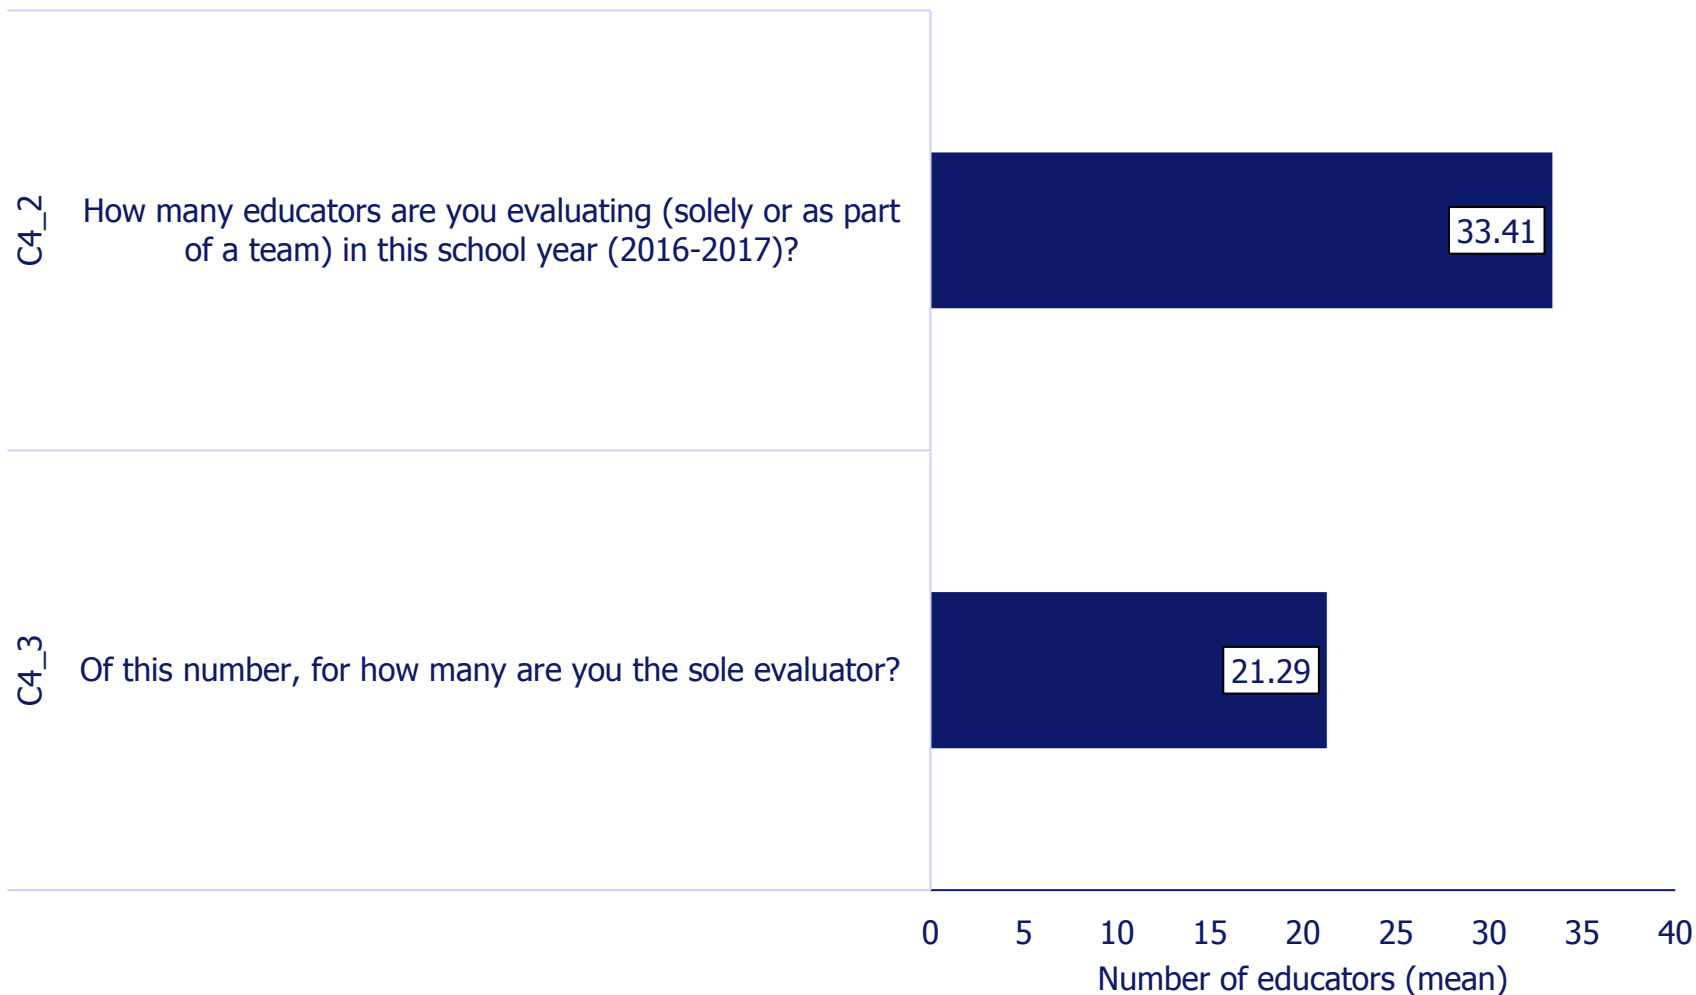

2017 VISTA Principal Survey:
Comprehensive Report – Educator Evaluation

During the school year, how many announced/unannounced observations do educators with/without Professional Teacher Status (PTS) receive?

2017 VISTA Principal Survey:
Comprehensive Report – Educator Evaluation

How many educators are you evaluating, and for how many are you the sole evaluator?

2017 VISTA Principal Survey:
Comprehensive Report – Educator Evaluation

For each of the roles below, indicate the number of people that have assumed some evaluation responsibilities for educators in your school (e.g., conducting observations, supporting goal setting etc.)

2017 VISTA Principal Survey:
Comprehensive Report – Educator Evaluation

2017 VISTA Principal Survey:
Comprehensive Report – Educator Evaluation

Which of the following types of evidence do you use to determine a Summative Performance Rating for teachers and is the type of evidence valuable?

2017 VISTA Principal Survey:
Comprehensive Report – Educator Evaluation

Below is a series of statements about the teacher evaluation system used in your district. To what extent do you agree with the following statements?

2017 VISTA Principal Survey:
Comprehensive Report – Educator Evaluation

Please indicate the percentage of teachers within your school who have common assessments that are used as evidence in the district's educator evaluation system.

2017 VISTA Principal Survey: Comprehensive Report – Educator Evaluation

Indicate your agreement with the following statements about common assessments used as evidence in the teacher evaluation system in your school.

2017 VISTA Principal Survey:
Comprehensive Report – Educator Evaluation

Please indicate your agreement with the following statements about the use of student and staff feedback in an educator evaluation system.

These statements relate to student and staff feedback that is used in your school/district's evaluation system. Please indicate the percentage of teachers within your school who do the following.

2017 VISTA Principal Survey: Comprehensive Report – Social and Emotional Learning

Social and Emotional Learning

Research and experience demonstrate that preparing all students for success (in school, the workplace, civic life, and more) includes attending to their social-emotional and health development. Furthermore, academic and social-emotional competencies are mutually reinforcing. Key levers in this work also include safe and supportive school climate and culture, and effective family engagement.

ESE is committed to building out supports and policies in partnership with practitioners in the field and other state agencies to advance this work in the Commonwealth, both in and out of school. It is our goal to promote systems and strategies that foster safe, positive, healthy, culturally competent, and inclusive learning environments that address students' varied needs and improve educational outcomes for all.

This section of the survey includes questions about respondents' views on the social and emotional learning supports and resources in their districts.

2017 VISTA Principal Survey:
Comprehensive Report – Social and Emotional Learning

Please rate your agreement with the following statements about social and emotional learning (SEL) in your school. If you do not have the resource available in your district/school, please use “Not Applicable” to respond.

2017 VISTA Principal Survey:
Comprehensive Report – Social and Emotional Learning

To what extent do you agree with each of the following statements regarding ESE's performance during the 2016-2017 school year relative to SEL policies and programs?

2017 VISTA Principal Survey:
Comprehensive Report – Social and Emotional Learning

Have you used or do you plan to use any of the following instruments to measure students' social and emotional competencies during the 2016-2017 school year? Please use "Other" to specify/add all other instrument(s) you use in your school.

2017 VISTA Principal Survey: Comprehensive Report – ESE Support

ESE Support

Massachusetts is a leader in K-12 education, yet great challenges and opportunities remain. As the administrative entity responsible for implementing and administering statewide education policies and reform efforts, ESE partners with districts to promote a culture of continuous improvement and to provide districts with the tools and skills to put improvement into practice. To serve that role more effectively, ESE has been working to align and organize itself to deliver innovative and effective supports to local schools and districts.

2017 VISTA Principal Survey:
Comprehensive Report – ESE Support

To what extent do you agree with each of the following statements regarding ESE’s performance relative to policies and programs during the 2016-2017 school year?

2017 VISTA Principal Survey: Comprehensive Report – Appendix

Appendix Tables

This appendix presents detailed aggregated data for each survey question in the principal survey, grouped by section. There are multiple rows for each survey item, with a separate row for each possible response to that item; each row in the table is a unique item-response combination. Each table displays:

- #: Survey question number, which includes a suffix referring to sub-item (e.g., i1_All or A1_1a),
- Matrix_Text: The introductory text for items grouped in a matrix or list (e.g., What grade levels does your district serve? or Please indicate your agreement with the following statements about the 2011 Massachusetts English Language Arts (ELA) Curriculum Framework.),
- Item_Text: The full text of the item (e.g., All or The current 2011 ELA Curriculum Framework sets appropriate expectations for student learning at each grade level.),
- Response: Each response option for the item (e.g., No or Agree Strongly),
- EstType: Estimate type (for categorical and ordinal items, the estimate is the weighted percent; for continuous items, the estimate is the weighted mean),
- Est.: The weighted estimate,
- CI: The 95% confidence interval around the estimate,
- N: The total number of participants who responded to the item.

The sum of weighted percentages across all response options within each item sum to approximately 100, with some exceptions due to rounding. These percentages and means have been produced by applying survey weights to the survey responses, and are referred to as “estimates” because they reflect the estimated percentage or mean from the full population (i.e., all districts or schools) even though only a subset of the population completed the survey. Each estimate has associated standard error and confidence interval, which are statistical measures of the reliability of this estimate.

95% confidence intervals can be used to approximate tests of statistical significance when comparing results between two items. For example, 34 percent of schools have principals who agree strongly that the current STE curriculum framework sets appropriate expectations for student learning at each grade level (item A3_1a), but 52 percent agree strongly that the current ELA framework sets appropriate expectations (item A1_1a). These percentages are different, but we know that both percentages are estimates. Can we conclude that fewer schools have principals who agree strongly that the current STE curriculum framework sets appropriate expectations for student learning at each grade level than agree strongly this is true of the ELA curriculum frameworks? In other words, is 34 significantly different from 52? For STE, the confidence interval ranges from 31 to 36 percent. For ELA, the confidence interval ranges from 50 to 55 percent. These two ranges do not overlap, which indicates that 34 is significantly different from 52. In other words, there are significantly fewer schools with principals who strongly agree that the STE Framework sets appropriate expectations compared to those who agree that the ELA Framework does so.
